

Ring Die Pellet Mill: KMPM42 Ring Die Pellet Mill

Sawdust pellet mill has got an increasing number of concern all around the globe for the reason that fuel pellets is becoming 1 of the greatest option energy sectors, growing not just on supplying houses and companies with heating fuel, but now there's also a growing sector producing fuel pellets for coal power plants. On a modest scale, lots of people are now thinking about producing their own fuel pellets from sawdust, and wish to know the best way to make wood pellets from sawdust. So, sawdust pellet mill is an optimal option for these men and women. A lot of other various wood and biomass supplies could be compressed into fuel pellets. But sawdust pellet mill can be a easy and less complicated method to understand your dream.

Model: KMPM 42 Ring Die Pellet Mill

Capacity: 0.8-1.2T/H

Power: Feeder 0.75,Conditioner 5.5,ForceFeeder 0.55,Main engine 90

Net Weight: 2430KG

Outside Dimension: 320×110×285 MM

The purposes of pellet fuels:

- Heating and energy of daily life: high fuel efficiency and convenient storage.
- Industrial boiler: as main fuel of industrial boiler to replace coal and solve the environmental pollution.
- Power generation: as the resource of thermal power.

Port: Tianjin

Payment Terms:L/C,T/T

Supply Ability: 30 Set/Sets per Month

Package: wood case

Delivery Time: 20 days
