Main Technical Data of Screw Briquetting Press:

Model	ZBJI	ZBJII	ZBJIII
Output kg/h	80-120	120-150	180-230
Motor Power (kw)	11kw(energy saving type with gear box)	15kw(without gear box)	18.5kw
Electric heater (kw)	1.5kw*3pcs	1.5kw*3pcs	2kw*3pcs
Weight(kg)	650kg	650kg	900kg
Overall dimension(mm)	1780*750*1290	1650*600*1260	1860*800*1360mm
Size of finished products	Diameter: 30,40, 50mm	Diameter: 30,40,50mm	Diameter: 60,70,80,90,100mm

Characteristic of Screw Briquetting Press:

1. No binder or noxious chemical need to use.
2. The humidity of the raw materials is controlled in 8-12%.
3. Using the advanced Hot air drying system with the perfect performance.
4. After the processing of High temperature, purification, smoke removing, the carbonizing equipment transforms the semi-finished bio-fuel briquette into a smoke-free, tasteless, non-toxic cleaning carbon.
